

*** About the PCs of the administration office, please wait for the additional message.***

Adobe's products authorized by serial number (serial number licensing) provided under comprehensive agreement are no longer usable after 1st September, 2021.

* How to identify the licensing types of Adobe's products.

If you use Adobe Creative Cloud (Desktop Application)

If authentication is required before you use the products.

Otherwise

“Shared device licensing”

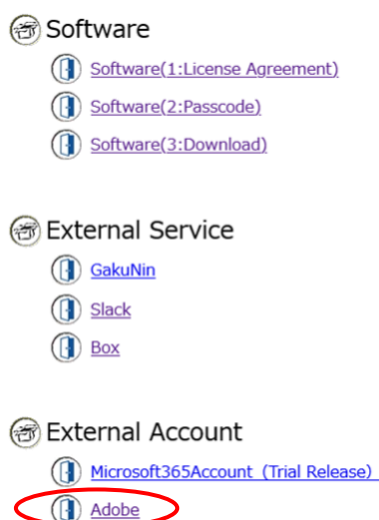

“Serial number licensing”

* “Named user licensing” products are newly provided (from 20 July, 2021).

Only for staff members (Student members cannot use) / Installable and usable outside campus.

* Need Adobe AuthID issued from Tokyo Tech, when you use Adobe's products

How to : Log in Tokyo Tech Portal → Go to “Adobe” in the list, and you can check your ID.

+ The menu list may look different.

** Adobe AuthID is your own ID (for each member; DO NOT share with anyone else).

* How to switch from serial number licensing products.

1. Uninstall the serial number licensing products

By use of the application setting panel/function of MS-windows OS/Mac-OS.

2. Install other than serial number licensing products.

You must connect your PC to the Campus Network, physically (not via SSL-VPN).

* Recommendation when you switch from serial number licensing products.

- “Shared device licensing” products, for a PC which is always placed inside the Campus (+1).
Students/part-time lecturers can only use “Shared device licensing” products.

+1: It is allowed to use the products outside the Campus, when inevitable case like business trip.

In such case, you need to connect your PC to the campus network via SSL-VPN. However, there is limitation on the number of SSL-VPN connection.

- “Named user licensing” product for a PC which is used both inside and outside the Campus.

+2: You can use the products on up to 2 PCs (incl. PC which is kept Adobe signed-in).

Adobe's products are only for university-owned PCs (NOT for personal-owned PCs)

Details of installation procedures and etc.: Please refer “Tokyo Tech Software Service web page”.
